Expanding a Team...

When assembling a winning team, you seek the strongest players. The Aria 3B Orthopaedic Institute has done just that as it welcomes the Muscle, Bone & Joint Center, located at 3110 Grant Avenue in Northeast Philadelphia, to its growing orthopaedic network. The Center - renamed Aria 3B-Northeast - is led by a winning team of orthopaedic specialists with many years of experience in joint replacement, shoulder surgery, foot and ankle care, and sports medicine.

Continuing a Tradition...

Now part of the Aria 3B Orthopaedic Specialists practice, Aria 3B - Northeast’s clinical team will continue its tradition of providing generations of Northeast Philadelphians with a comprehensive approach to both surgical and non-surgical treatments of disorders of the bones, joints, muscles, tendons, and nerves. This growth also expands the team’s longstanding relationship with Aria Health, where the group had focused its surgical practice for the past 13 years.

Patients will receive the same seamless routine, pre-operative, and post-operative care at the same convenient location - 3110 Grant Avenue. Surgical procedures will also continue to be performed at Aria Health’s Torresdale and Frankford hospital campuses.

At Aria 3B - Northeast, it is a privilege to serve your orthopaedic healthcare needs.
